

Kymanox ACADEMY

LEADERSHIP DEVELOPMENT PROGRAM

CAREER DEVELOPMENT IN PHARMA, BIOTECH, AND MEDICAL DEVICE

Kymanox is a premier technical products and project management company that utilizes Ideal Knowledge Transfer™ to help bring products from bench to patient. We are experts in providing our clients in the pharmaceutical, biotechnology, and medical device industries with engineering, scientific, regulatory, quality/compliance, and project management support.

Kymanox Academy is a leadership development program designed to educate and train the future leaders of the pharmaceutical, biotechnology, and medical device space. With our diverse areas of expertise and experienced team, Academy members will undergo a two-year rotational program to train with the best in the industry and take your career in the pharmaceutical space to the next level.

CURRENT ROTATIONS INCLUDE:

- Process Engineering
- Commissioning, Qualification, and Validation (CQV)
- Quality Engineering
- Technical Project Management

**Each rotation is approximately six months in length*

You are organized and detail-oriented. You have a thirst for continued learning.
You have a high emotional intelligence. You envision yourself a future leader.
